

# Hanalei Cesspool Replacement Project

## COST:

- Average cost of closure and upgrade: \$25-30,000, installed. Will vary based on site conditions.
- Hanalei Watershed Hui can pay half of this cost, up to \$15,000.
- ATU has a pump and two blowers that use electricity, ~\$45 per month.
- HIDOH requires annual maintenance contract with manufacturer's service provider, variable cost.

## ELIGIBILITY:

Hanalei Watershed Hui received funding from the Hawai'i State Department of Health to convert cesspools to aerobic treatment units (Waipono Pure) for 15 owner-occupied parcels and 2 TVRs in Hanalei (2017-2018). Any property with a cesspool from Wai'oli Stream to Hanalei River within 750 ft of a waterbody can participate.

## STEPS IN PROCESS:

- Contact Hanalei Watershed Hui with interest.
- Verify to determine if property is eligible.
- Enter into contract with Waipono Pure via SRGII.
- Prepare site plans, to be completed by manufacturer's engineer.
- Secure permit and approval.
- Install unit, to be completed by local contractor.
